

Campus Access At Air University

Description

Air University believes that all of the campus's structures, including its buildings, classrooms, laboratories, and common areas, are made accessible. This entails putting in accessible pathways, lifts and ramps to make it easier for students with mobility issues to move about.

To meet the requirements of students with disabilities, Air University offers accessible restrooms, parking spaces, and other facilities.

Ramps Provided for handicapped Peoples to easily access to Building

Ground Floor access to Library, especially for handicapped (Air University, Multan Campus)
