

## **Air University Commits to Net Zero Carbon Emissions by 2050**

**Air University Islamabad proudly commits to achieving Net Zero Carbon Emissions by 2050, reinforcing its leadership in sustainability and support for SDG 13: Climate Action.**

### **Key actions include:**

- **Transitioning to 100% renewable energy by 2040**
- **Reducing Scope 1, 2, and 3 emissions through sustainable practices**
- **Integrating sustainability into curriculum and research**
- **Promoting a culture of environmental responsibility**
- **Publicly reporting progress for transparency and accountability**

**This pledge reflects our dedication to innovation, academic leadership, and a sustainable future for Pakistan and the world.**

**Join us on this journey toward a net zero future.**

**Issued by:**  
**Office of the Director Quality & Sustainability**
